

### *water purification machine series*

Adopts advanced Reverse Osmosis membrane technology with 5 stages of purification to remove chlorine, minerals, heavy metals, pesticides, and organics.

BNT-RO75-C05

BNT-RO75-C06

BNT-RO75-C04

BNT-RO75-C30

BNT-RO400-C10

# Reverse Osmosis

## Reverse Osmosis water purification machine series

DOW membrane made in USA, 75 GPD capacity, high TDS rejection, long life.

All components and product testing meet NSF requirements.

Innovative filter housing structure is safe, easy to change, and reliable.

Quick connect fittings. Easy installation and maintenance.

Auto-shut off feature when storage tank is full or low pressure for safe reliable operation.

Compact design for space saving under-sink installations.

Automatic flush feature for longer membrane life compared to traditional systems.

Adopts Reverse Osmosis membrane technology which precisely filters down to 0.0001mm particles. Removes minerals, chlorine, heavy metals, and organics from water.

Fresh : Direct flow Fresh Water.

Pure: Large capacity tank-less system (BNT-RO400-C10).

High quality stylish appearance.

Safe: Wetted parts molded from Food-grade materials.

High Quality Water: Pure, Healthy, High Efficiency

| Model No.     | Power Rating | Flow Rate | Working Temperature | Inlet Pressure | Inlet Water     | Dimension     |
|---------------|--------------|-----------|---------------------|----------------|-----------------|---------------|
| BNT-RO75-C04  | 24W          | 11.7L/H   | 5°C-38°C            | 0.10-0.40MPa   | Municipal Water | 380*178*450mm |
| BNT-RO75-C05  | 24W          | 11.7L/H   |                     |                |                 | 422*200*467mm |
| BNT-RO75-C06  | 24W          | 11.7L/H   |                     |                |                 | 150*410*436mm |
| BNT-RO75-C30  | 24W          | 11.7L/H   |                     |                |                 | 380*178*450mm |
| BNT-RO400-C10 | 50W          | 60L/H     |                     |                |                 | 390*178*482mm |
