- Light weight
- Good impact resistance
- Low moisture absorption

#### High Density Glass Filled Polypropylene Threads

- High strength
- High chemical resistance
- High temperature resistance / melting point (150 to 200 degrees F)
- Abrasion Resistance
- Lightweight
- Excellent Dimensional Stability

To insure rugged durability and safety, Canature tanks consistently pass the NSF 44 standard for burst and proof testing.

To insure consistent reliability, our tanks consistently pass 2.5 times more pressure cycles (our standard) than the NSF 44 standard.

In fact the NSF standard does not cover performance in extreme environments. The Canature standard is 2 times higher compared to other manufacturers.
